CHENNAI METRO RAIL NEWS LETTER

VOLUME-VII ISSUE-9

Announcement of Hon'ble Chief Minister in Tamil Nadu Legislative Assembly

The Honorable Chief Minister of Tamil Nadu, Selvi J Jayalalithaa has announced in Tamil Nadu Legislative Assembly under rule 110 on 15/09/15 for development of Central Square at a tentative estimated cost of Rs. 400 crores. The areas adjoining to Rippon Building, Victoria Public Hall, Central Suburban Railway Station, Chennai Central Railway Station, Chennai Railway Headquarters Building, Chennai Medical College, Government General Hospital, Park Town Suburban Station, MRTS Station and Ramaswamy Mudaliar Choultry will be developed at international standards as Central Square.

The heavy traffic in this area is due to transfer of passengers from Chennai Central Railway station and inter-changing from sub-urban terminals at Moore Market Complex and Park Station and MRTS Station behind Government General Hospital.

These passengers require easy and safe access to various modes of transport like MTC buses, taxis and autos apart from proposed Metro Rail. It has been proposed to implement a comprehensive plan for traffic integration between various modes of transport to enable seamless and convenient transfer of passengers.

The project will be funded by Chennai Metropolitan Development Authority and implemented by Chennai Metro Rail Limited.

TBM 2 Makes Successful Breakthrough at AG-DMS Station

TBM 2 (Tunnel Boring Machine) of UAA 03 has made a successful breakthrough at AG-DMS on 01-09-15. TBM 1 had already made breakthrough at AG-DMS on 4th July 2015.

The tunneling work had commenced from Saidapet Ramp towards AG-DMS station with a total drive length of 3.3 Km.

The tunneling was carried out with drive through option, passing both the TBMs through two of the underground stations at Nandanam and Teynampet. With this breakthrough, the entire tunneling work of UAA-03 is broadly completed.

This was one of the major challenges for CMRL as one of the JV partners of main contract namely M/s Mosmetrostroy had abandoned the tunneling works halfway. CMRL engaged another contractor to complete the balance works which has now been completed successfully.

CMRL Campaigns for "Celebrating Mobility Week"

The International Association of Public transport (UITP) has taken an initiative to create awareness on usage of public transport by launching a global movement "the 2015 UITP Mobility Week campaign". UITP launched this world wide campaign during the European Mobility Week from 16th to 22nd September 2015. Around 92 countries join "The 2015 UITP Mobility Week Campaign" movement by displaying the message "Celebrating Mobility Week" in websites, social media.

Public Transport offers energy and cost effective mobility solutions that benefit everyone, protect the environment and creating livable cities. With more and better public transport, cities can cut traffic congestion, foster social inclusion and reduce pollution.

In the fight against climate change, electro-mobility is becoming increasingly popular. However, whether electric or not, cars simply add to congestion: on a same corridor, sub-urban rail by comparison can carry up to 50 times more passengers than cars. But e-mobility is not limited to cars: more and more bus systems are become electric whilst energy regeneration from metro braking allows for the charging of electric vehicles. Multi-modality has become a matter of course.

Being a member of UITP, CMRL participated in this campaign to create awareness among public in Chennai city and conveying a common message "Celebrating Mobility Week".

CELEBRATING MOBILITY WEEK
16-22 SEPT 2015

Mock Fire Drill Conducted at CMBT Metro Station

A Mock Fire Drill and Hands on Training on Fire Safety system for local fire station was conducted by CMRL assisted by Tamil Nadu Fire and Rescue Services at CMBT Station on 22-09-15. SMOKE DETECTOR, FIRE ALARM, Grounding of Lift, Escalator and opening of AFC gates were monitored. FIRE HYDRANT system also was tested by local fire service personal during the Drill at street level. With proper announcement the drill was completed in few minutes without any disturbance to commuters. Routine Mock Fire Drills has been planned to be conducted at Arumbakkam Metro Station and Koyambedu Metro Station by this month. Mock Fire Drills are routinely conducted for the upkeep of Fire Safety Systems at CMRL Metro Stations

Overview of Chennai Metro Rail Works

Track Progress as on 30-09-2015 (ATA-01)

CORRIDOR-I :

In Elevated section between saidapet ramp and airport, 13667m plinth concrete completed out of 18723m and 19 turnouts were laid out of 23 turnouts and balance work in progress. Casting of scissor cross over at Airport has been completed.

Airport Scissor Crossover

CORRIDOR-II :

In Elevated section between Thirumangalam and St. Thomas Mount, Track work completed for entire elevated stretch of 24788m track length with 27 turnouts.

In the underground section between Thirumangalam ramp to Chennai central, Track work in progress between Thirumangalam ramp to Egmore and out of 19888m, 4889m plinth concrete completed and balance in progress.

Depot :

Track work completed for entire depot length of 14606m and 41 numbers of turnouts were laid.

Rolling Stock Progress - Sep 2015

The total order quantity for design, manufacture, supply, testing and commissioning of trains from Alstom Transport is 42. Out of which 9 trains are imported from Alstom, Brazil and remaining 33 trains are being delivered from Alstom Factory set up at Sricity, Andhra Pradesh as a measure of promoting indigenization and technology transfer of Metro train manufacture.

Trains delivered to depot

A total of 29 trains including the 9 trains of import category, have been delivered to CMRL Koyambedu Depot. Train 26, 27, 28 & 29 was delivered in the first week of September 2015.

Trains under testing at CMRL facility

All nine trains in the import category from Alstom, Brazil have been delivered to the Koyambedu depot and have completed static inspection followed by all major type and routine tests in depot and mainline.

The first twenty (train No. 10 to 29) Sricity manufactured trains are delivered to CMRL Depot.

- Trains 10 to 18 have completed all tests in Depot and Mainline.
- Trains 19 to 29 are under various stages of static inspection, tests in Depot and Mainline.

Trains commissioned and conditionally accepted by CMRL

- Nine trains have been issued with completion certificate and seven among these nine trains have been conditionally accepted by CMRL in June 2015.
- The accepted 7 trains are put under revenue service of Stage-1 section of CMRL from June 2015. Maintenance activities on these 7 trains are carried out by CMRL Rolling Stock Maintenance Team and the warranty obligation is done by the contractor.
- Present focus is on addressing the customer complaints reported in the trains, which has seen reduction in the complaints, resulting into improvement of the customer satisfaction.

Trains under manufacturing at Sricity

- Trains 30 to 35 are under various stages of production, as per the schedule at Alstom factory, Sricity. These trains will be progressively delivered to depot by first week of December 2015.

Standardization and indigenization of Rolling Stock

- Based upon the directions of Ministry of Urban Development, conference on "Standardization and Indigenization of Rolling Stock for all Metro systems in India" was organised by CMRL on 29th and 30th Sept, 2015 inviting all Metro Operators of India and Metro Rail Car manufacturers in India. The report, after the deliberations is planned to be submitted to MoUD in the month of Oct 2015.

Vivekananda Educational Society Students Visit CMRL

The team of 40 students (Boys and Girls of Senior Secondary Classes) from 9 CBSE schools of Vivekananda Educational Society and teachers visited CMRL as part of their educational trip. The enthusiastic team travelled from Alandur station to Koyambedu Metro Station and reached CMRL Admin Building on 21st of September. As part of their learning experience, they were also given the opportunity to view the heart of CMRL - the OCC Gallery.
