CHENNAI METRO RAIL LIMITED

Tender document no. CMRL/SYS/RS/Stores/210/2022

Tender for Supply, Testing And Commissioning Of Wheel Profile Measuring Device For Rolling Stock Maintenance..

Response to queries during pre-bid meeting conducted in CMRL on 03/09/2022

| Sr. No. | Tender clause. | Original bid condition | Queries | CMRL clarifications |
|--------------------------|-----------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|
| Bidder -1 queries | | | | |
| 1 | Annexure - VIII Technical compliance sheet Sr.No.04 | Features - WiFi, Bluetooth, Ethernet provision | In MiniProf Wheel Profile Measuring System, for profile measurement, the measuring device (MiniProf Wheel) is connected to portable handheld tablet via Bluetooth Connection. The measured data is transfer from Tablet to Laptop Via Bluetooth Connection as well as wired connection (USB Cable). In our system, Wifi and Ethernet Provision is not available. Hence, we request you to kindly kept Wifi and Ethernet Provision as an optional. | Refer Corrigendum no.01 |
| 2 | Annexure - VIII Technical compliance sheet Sr.No.06 | Measurement range Rim thickness : 30 to 100 mm | In MiniProf Wheel Profile Measuring System, the measurement of rim thickness is not possible. Hence, we request you to kindly delete the requirement. | Refer Corrigendum no.01 |
| 3 | Annexure - VIII Technical compliance sheet Sr.No.07 | Measurement accuracy Rim thickness : ±0.1 mm or better | | Refer Corrigendum no.01 |
| 4 | Annexure - VIII Technical compliance sheet Sr.No.06 | Measurement range Diameter : 400 to 1400mm | In MiniProf, the diameter is calculated on the basis of measured wheel profile parameters (just for reference if really necessary) and not measured actually. Hence we recommended not to consider MiniProf Wheel for diameter measurement. | Tender condition prevails |
| 5 | Annexure - VIII Technical compliance sheet Sr.No.10 | Accessories Batteries and Charger | Our system uses non-removable battery which is in-build in the device and hence, there is no possibility of replacement. So provision for supply of additional batteries for system is not required. Hence, we request you to kindly kept the supply of batteries as an optional. | Refer Corrigendum no.01 |
| 6 | GeneralCondition of contract. Clause no.20.2 | Payment 100% Payment shall be paid only upon certification by Competent official of CMRL regarding satisfactory performance and acceptance of all the items on receipt of the following documents of the billed work / supplied items. i.
