

3-day inspection of metro line ends: The three-day inspection by the Commissioner of Metro Rail Safety of the 10-km metro rail line from Washermenpet to AG-DMS concluded on Monday with CMRS K A Manoharan and his team inspecting train and signal integration along the stretch. The team conducted 16 different tests, as the four-car metro trains were operated at a maximum speed of 80kmph both upline and downline. Operations and system readiness was also inspected. CMRS inspection and approval is mandatory for the commercial operation of the line.
