

CMRL must be lauded for exceptional maintenance

Chennai Metro Rail Limited (CMRL) received Kalam Innovation in Governance Award at the third Dr APJ Abdul Kalam Memorial Summit held in New Delhi. CMRL was recognised for adopting energy saving technologies, green initiatives in phase-1 and for implementing station optimisation in phase-1 extension. Now, Chennaiites should take responsibility to support CMRL. It has done an excellent job in maintaining the stations and the train. We should use the facility and add to their revenue to ensure its smooth functioning. As patrons increase, CMRL might increase the connectivity, too. It will also benefit the environment, too, when we give up on private vehicles and choose public transport.
