

CMRL's success trial

Chennai Metro Rail Limited (CMRL) had undertaken an initiative of providing several last-mile connectivity measures for Metro passengers. Share auto and share taxi feeder services were initiated in a trial basis at select Metro stations on August 11. A press release from CMRL said that 46,118 passengers have utilised these services in August 2019. While the share auto feeder services are plying on the designated feeder routes with a flat tariff of ₹5, the share taxi covers an area up to 3-km radius at a flat tariff of ₹10.
