

Disinfectant activities by CMRL

Chennai: Chennai Metro Rail Limited (CMRL) has launched disinfectant activities at Central Metro Station and Airport Metro Station to prevent spread of Covid -19 in association with Ascentya research and development solutions. The officials said that precautionary activities began on Saturday and continued on Sunday. As part of the programme, Corona Antivirus Precautionary messages are being sent as SMS to cell phones for the benefit of metro commuters. Do's and don'ts are published at all metro stations along with the announcements which are regularly made for benefit of the passengers', said officials.
