

CMRL offers discount to boost QR-ticket use

Chennai: Chennai Metro Rail Limited (CMRL) is providing a 20% discount on all QR-tickets from Friday in an effort to encourage passengers to use the new facility and minimise physical contact. CMRL said the discount is applicable on single journey, two-way, group tickets and passes purchased through QR-code ticketing facility.

On purchasing a ticket or a pass through the CMRL app, passengers will get a QR-code which they can simply tap on scanners installed in all station during entry and exit. Travel card readers have also been installed where passengers could tap their smartcards to recharge, check balance or travel history. This will save time on waiting in queues and avoid contact at the counter and ticket vending machines. TNN
