

50% occupancy in Metro trains from tomorrow

Chennai: The Chennai Metro Rail (CMRL) will allow only 50 per cent passenger occupancy in Metro trains from Thursday, as per fresh instructions from the State government, in an effort to curb the spread of infection. CMRL will closely monitor passenger movements via CCTV at all stations and Operational Control Centre (OCC) located at CMRL Administrative Building, Koyambedu. Appropriate measures will be taken to increase services during peak hour in case of increase in patronage, said a release.
