Press Release

Sub: CMRL installed and commissioned 380 KWp Solar PV Power Plant over the Two / Four wheeler Parking Roof Sheds at three Metro Stations and Ground area inside the Metro Rail depot -Reg

CMRL being very much committed to achieve energy security, to reduce carbon emission and Green energy concept by generating renewable energy by installing Roof Top Solar PV Power System.

CMRL Successfully installed and commissioned another 380 KWp Solar PV Power Plant in the premises of Two / Four wheeler Parking Roof Sheds at three Metro Stations namely Anna Nagar East, Pachiappas College and Nehru Park and Ground area inside the Metro Rail depot which is expected to generate around 45600 units per month and saves around Rs.11,92,896 per year.

These Solar Plant Projects were executed under Zero Capital Investment by CMRL and based on RESCO Model under Solar energy Corporation of India (SECI) Scheme, on monthly Tariff basis payment.

This method of Generated Solar Power will be utilized for technical demands. Now the installed capacity of Roof Top Solar Power by CMRL is 3.76 MW in total. Another 4.2 MW Roof Top Solar Power installation is under progress which is expected to be completed by the month of February 2019.
